EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with J. Ernest Kenney on 6/19/09.

The application has been amended as follows:

IN THE CLAIMS

In Claim 1:

1. (Currently Amended) Method for checking bank notes, in which data from at least two different sensor measurements of the bank notes to be checked are evaluated,

comprising the steps:

deriving a first property of the bank note to be checked ~~is derived~~ from data obtained from at least one first measuring using at least a first sensor,

deriving at least one second property of the bank note to be checked ~~is derived~~ from data obtained from at least one second measuring using at least a second sensor, then

deriving a correlation ~~is derived~~ between said first property and said at least one second property for the same places on the bank note to be checked to provide combined data related to the first and at least one second properties of the bank note to be checked, and then

deriving the first property ~~is derived~~ once again, so that at places on the bank note to be checked, for which said correlation between the first property and the at least one second property was determined, an altered derivation of the

first property is effected from the data of the at least first measuring by comparing data obtained from the correlation between the first and at least one second property with the data obtained from the first measuring, and using the result of the comparison to obtain an improved indication of said first property.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

These comments are made in addition to the remarks in Applicant's specification and arguments, concerning the manner in which the invention distinguishes from the art discussed therein. The Examiner notes that the prior art does not disclose or suggest the claimed combination including a method and apparatus for checking banknotes in which a correlation is derived between a first property and a second property with the first property derived a second time, so that at places on the bank note to be checked, for which said correlation between the first property and the second property was determined, an altered derivation of the first property is effected from the data of the at least first measuring by comparing the data obtained from the correlation between the first and at least one second property with the data obtained from the first measuring, and using the result of the comparison to obtain an improved indication of said first property, as described in Claims 1 and 9. The prior art lacks this structure or anything equivalent to it.

The foregoing is an Examiner's Statement of Reasons for Allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to JEFFREY A. SHAPIRO whose telephone number is (571)272-6943. The examiner can normally be reached on Monday-Friday, 9:00 AM-5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patrick H. Mackey can be reached on (571)272-6916. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
